About Us

The history of Civil Registration System (CRS) in India dates back to the middle of the 19th century. In 1886, a Central Births, Deaths, and Marriages Registration Act was promulgated to provide for voluntary registration throughout British India.

Post-independence, the Registration of Births and Deaths Act (RBD Act) was enacted in 1969 to promote uniformity and comparability in the registration of Births and Deaths across the country and compilation of vital statistics based thereon. With the enactment of the Act, registration of births, deaths, and stillbirths has become mandatory in India.
